

## **Learning with fun**

The teaching learning process in the Primary Section in the session 2019-2020 was done in activity-based teaching with fun to make the learning without burden. Activities like dramatization, poem recitation, storytelling, movie show, quiz, map reading and so on were done.

Moreover, for Funday activities students were divided into different clubs under the guidance of Kendriya Vidyalaya Sangathan. In those clubs, students learnt many things with fun like dancing(folk dance, classical dance), singing(folk songs, community songs), dramatization, art and craft work, different types of games like Kabaddi, carromboard etc.

Children also performed some activities in the morning assembly. They learnt all those things with great joy.
